Security sold from the Money? What Money? investment portfolio:

Company Name: Barclays

Symbol: BARC

First Held: 27th November 2008

Holding Sold: 100%

Date Sold: 4th November 2009

Price: 330.74 Pence

Profit: 51%

Summary:

Having achieved a better than expected 50% profit we sold out holding in Barclays to release capital for other investments. The banking index of which the Barclays shares was initially a part has suffered due to a failure to fully factor in the impact dealing costs on the overall return.
